Resolved, That we tender to the State at

We noticed in this meeting a slight disposis tion to turn it to account, in favor of Senator Hadley. Mr. Hibbard took particular pains say further that that bill [the land grant] was in this, as at the former meeting, to call spe. bought through the legislature by bribery and cial attention to Senator Hadley's great efforts corruption; that there is no more doubt of of their sinking ship, and the lenders are fels pel, the report of the St. Louis Border Ruffian in this cause, and what a debt of gratitude we this fact than that the sun is shining in the lowing their example. owed him, when, in fact, the bill which he introduced was so objectionable that the Governor vetoed it, but he made no mention of Judge Potter, though the bill he introduced into the Assembly, became a law, and was the bill whose passage was the occasion of this celesbration.

While almost everybody was cheered, and all classes and every agency but one which had been engaged to secure this disposition of the grant, was duly honored with its just meed of praise, no allusion was made, either in the resolutions, speeches or cheers, to the press of Milwaukee. Considering the engerness with which the managers of this celebration welcomed-we do not say sought-the cosoperas tion of the press, while the issue was pending, and the battle to be fought, so marked an omission-indicative of a sudden change in the programme-was a little singular, though, perhaps, not at all unnatural. And we only call attention to it, as an illustration of the conduct of railroad companies.generally, toward the press, When they have any great enterprize afoot. that requires the aid of the press for its accomplishment, editors must take hold of the work as though their hope of heaven was staked on the issue. But when, through their aid, they have succeeded, their company can be dispenswith and they are dismissed to the devil, or elsewhere, as is most convenient. It has always been most convenient for us to go elsewhere, but we owe no thanks to railroad corporations that we have not been obliged to go to the other place Thus much we have felt it due to the honor of our profession, to notice this public slight to the press of this city. If it was designed, it reflects little credit on the officers and managers of the celebration. If it was purely accidental, it reflects still less credit, either upon them or upor the press. We here with send you a certificate of a cure performed by the use of only one bottle of the German Bitters. We thick Mr. Clark to be a man of veracity, and have no doubt of the train of the story:

MESSES Jos. B. HALL & Co., electioner: In answer to your inquiries, I will state that my daughter aged 16, has been complaining of a pain in her side for 6 me? Young, and about the 1st of January has, was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between har shoulders and in her forest. Tron reading a number of cures performed by Hoofland's German Eliters, I was induced to try it in her case, and sent to your store and nurchosed one bottle. She had taken it late tow dow when she began to improve and now after taking only one bottle, she is enjoying better health than she has for your. She feels no pain in her side or any part of her nody, and attitutes her care entirely to the German Bitters.
